MIZZOU MEDPREP

PROGRAM OVERVIEW
Mizzou MedPrep programs help individuals explore careers in health care and guide those interested in medical school through the application process. All applicants are welcome, though students who are underrepresented in medicine, come from socioeconomically disadvantaged backgrounds or rural areas, and/or those who are nontraditional students are particularly encouraged to participate in the program.

PROGRAM HIGHLIGHTS
• Individualized Advising
• Patient-Based Learning (PBL)
• Patient Simulation Activities
• Mock Interviews
• Personal Statement Review
• Academic Enrichment

Abdoulie Njai
"MedPrep not only provided me with guidance through the Medical School application process, but it also showed me that the University of Missouri School of Medicine was a place full of supportive individuals, great resources, and unique opportunities."

Hosea Covington
"Take on every opportunity you can in order to increase your chances of getting accepted, including Medprep."

Summer Jensen
"I was particularly blown away by the mock PBL session and getting more familiar with the expanding opportunities unique to Mizzou Med. Additionally, the personal statement peer and faculty review and mock interview were particularly helpful in the application process. These activities assuaged my apprehensions and increased my confidence in my application."

WHICH MIZZOU MEDPREP PROGRAM IS FOR YOU?

EXPLORE

• **MEDICAL EXPLORATIONS** helps high school juniors and seniors explore various health professions and gain hands-on experience through simulation activities. This workshop includes a two-week, online component and a one-day, onsite workshop.

• **MIZZOU PRE-MED DAY** is designed to showcase and highlight MizzouMed. It is an interactive day that will feature a medical education panel, student led tours, a demonstration of the Patient-Based Learning curriculum and a School of Medicine fair. Participants will have an opportunity to meet faculty and students throughout the day, ask questions and hear first hand what it’s like to be a medical student at Mizzou.

EXPERIENCE

• **MIZZOU MEDPREP I** is a day-and-a-half, onsite workshop that helps college juniors, seniors and nontraditional applicants gain insight into what makes a well-rounded and competitive applicant through various sessions. The workshop includes individualized one-on-one advising with a faculty or staff member. During the sessions, participants obtain a better understanding of the importance of research and community service, and learn about financial aid, patient-based learning and academic preparation. Attendees also may talk with faculty and current medical students.

EVALUATE

• **MIZZOU MEDPREP II** prepares college juniors, seniors and nontraditional applicants for the AMCAS application process, writing personal statements and securing stellar recommendation letters. Participants also complete mock interviews. This workshop includes a three-week, online component and a one-day, onsite workshop.

PREPARE

• **MIZZOU MEDPREP III** is a workshop for newly admitted MU School of Medicine students. The six week online workshop includes four academic primers designed to provide students with a review of anatomy, biochemistry, cell physiology and pharmacology. A student can choose one or more primers to prepare for the first year of medical school. One additional professional development primer, diversity and inclusion, is online and onsite activity designed to promote an inclusive academic health care community between the entering class, faculty, staff and students.
