## FACULTY POSITION

### Assistant, Associate, or Full Professor – Virology

The Department of Molecular Microbiology and Immunology <http://medicine.missouri.edu/departments/molecular-microbiology-and-immunology/> at the University of Missouri in Columbia, Missouri, invites applications for one or more tenure-track virology faculty positions at any rank. We seek strong individuals in any area of modern virology, broadly defined. We are particularly interested in candidates who can form collegial and collaborative relationships with other faculty at MU, capitalize on the broad range of research themes at the institution, and integrate perspectives from multiple disciplines. We encourage applications from individuals who can demonstrate a commitment to increasing diversity, inclusion and access to higher education for groups underrepresented in the sciences. The new hire will join a diverse group of virologists in the pathogenesis wing of the Life Sciences Center (LSC) <https://bondlsc.missouri.edu>, a state-of-the-art, multi-disciplinary facility. The LSC is designed to provide a highly interactive scientific environment.

The successful candidate will be expected to establish and/or maintain a strong extramurally-funded research program and to participate in undergraduate, graduate and professional education. We offer a competitive salary and start-up package, a vigorous doctoral program, a highly interactive faculty and outstanding research core facilities. Columbia is consistently ranked among the top-ten college towns in the U.S. MU is committed to achieving the goal of a diverse and inclusive academic community of faculty, staff and students. We strongly encourage applications from women and members of groups historically underrepresented in STEM fields.

Applicants must possess a Ph.D., M.D., or equivalent degree, and have appropriate research training to succeed as an independent investigator. Applicants should apply online at <http://hrs.missouri.edu/find-a-job/academic/> (Job ID 24663) and be prepared to submit a current curriculum vitae, a statement of research interests and future research goals, and the complete contact information for at least three references. Other pertinent documents are welcome and encouraged, such as a statement summarizing past or potential contributions to diversity and inclusion and a statement of teaching and mentoring philosophy. Review of applications will begin December 4, 2017 and continue until recruitment is complete.
