

2020 Child Health Residency Simulation boot camp

The Child Health Residency Simulation boot camp is for first-year Pediatrics and Internal Medicine-Pediatrics residents at MU. The first boot camp was held on June 16, 2020 and will continue to be held annually. Continuing Simulation Education sessions are held quarterly on a Thursday and usually are four hours in duration. They provide a safe learning environment where there are no “errors”, only learning opportunities.

Groups of three to five residents work with a faculty facilitator at each station and practice two procedural skills and up to six scenarios. Each station lasts approximately 30 minutes,

The procedures practiced are selected by the group of participating residents and the chief resident a week in advance.

2020 sessions were held on: September 3, 2020, June 11, 2020, and Feb 13, 2020.

Participating Faculty

- [Anjali Anders, MD](#)
- [Dana Bichianu, MD](#)
- [Keven Cutler, MD](#)
- [Linda Dunscombe, NNP](#)
- [Sumit Gupta, MD](#) & [Bradley Spence, MD](#)
- [Jennifer Hanford, NNP](#)
- [John Pardalos, MD](#)
- [Akshaya Vachharajani, MD](#)
- [Venkataraman Ramachandran, MD](#) & Ms. Deborah Phelps, LPN OMS

Special Thanks

The boot camp could not have been accomplished without the support of the [Sheldon Clinical Simulation Center](#) and the following participants:

- [Penny Adams, C-TAGME](#)
- [Marty Runyan, BSN RN](#)
- [Bobby Horn, EMT- P](#)
- [Charles McBee, BS](#)
- [Natasha Parker BSN, RN, CPN](#)
- [Venkata Gupta, MD](#)
