

Humans prefer to be called  
"domestically challenged"

Don't let your pet judge you for not getting screened for colon cancer

Colon screening is an important part of staying healthy as you get older.

## Pet owners aged 45-75: it's time to get colon screening.

Colorectal cancer (CRC) is the second leading cause of cancer deaths in the US, but you can prevent it with regular screening.

## Get the scoop on CRC Screening

There are 3 types of screening tests for CRC. Talk to your provider about which one is best for you.

### At-home Stool Test

FIT & FOBT  
Repeat every year

Cologuard  
Repeat every 3 years

### Procedure Center

Colonoscopy  
Repeat every 10 years
