

## Uber Health

Uber Health is a transportation resource that is available wherever Uber is offered. This program through Uber is HIPPA compliant. There is no service or technology fee for a clinic to have an account. If Uber is provided in your area, then Uber Health may be an option to help reduce the transportation barriers for your patients. You may have the ability to schedule a ride up to 30 days in advance.

Clinical staff will schedule the ride for the patients, which avoids patients having to schedule their own ride. The only expense on the clinic would be the rides that have been completed.

The charts below are the price estimates for a ride. The price is based on the mapping from a clinic in the area to the referral location; variations will occur based on each patient's residential address.
